CFC Welcomes Jeb Early and Maddie Apel

CFC Farm & Home Center is excited to welcome Jeb Early as a Territory Sales Manager. A native of Fauquier County, Jeb graduated from Ferrum College with a bachelor's degree in Agriculture Sciences with an Agribusiness option. Prior to joining CFC, Jeb was an agriculture teacher at Kettle Run High School.

Joining CFC as a summer intern is Maddie Apel.

Maddie is a Madison County native and grew up showing livestock through 4-H. She is heading into her senior year at Virginia Tech where she majors in Agribusiness. We are delighted to have Maddie with us this summer and look forward to her time at CFC Farm & Home.

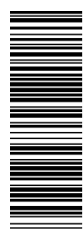

Agronomy Tip Sheet

As we head into the heat of the summer how are your pastures looking? Are weeds taking over? Is your grass stand fading away? Summer is a great time to evaluate your pastures and hayfields so that you are ready to take action when the timing is right. It may be time for new soil samples so you can get a fertility plan for fall. Perhaps your fields need overseeding or a full renovation. Now is the time to be thinking about a plan as seeding and fertilizing for fall growth will need to happen in mid- to late August to be the most effective.

What about weed control? Summer annual weeds can be controlled in July if they are in the right growth stage. Pigweed and perilla mint are two of the more common weeds we deal with. Mowing before they go to seed is very important but if the infestation is bad enough, spraying may be necessary. Your CFC team can help you evaluate your pastures and hayfields to come up with a plan. We can help identify your problem weeds and evaluate steps to improve your forage production. Give your territory sales manager a call today.

Feed Spotlight: Pace-Maker Fiber Focus

Pace-Maker Fiber Focus is a great feed for use in a variety of settings, from hard keepers and seniors to performance horses in light to intense work. Formulated to keep starch and sugar levels low, reducing the risk of ulcers and providing "cool" calories. Our upgraded formula increases palatability. Fiber Focus is well suited for starch-sensitive horses. Stop by your local CFC today and save with the coupon below!
