New CFC Locations

CFC is excited to announce the addition of TWO NEW LOCATIONS!

Clearbrook and Berryville bring experienced employees and great customers to our CFC family. With the addition of these businesses, we will also be in a position to better serve our CFC customers in those areas.

We want to extend a warm welcome to the employees and the customers of those locations.

New Winner's Circle program starts October 1st

Youth livestock exhibitors - join us in the Winner's Circle this year. Save \$1 per bag of livestock feed throughout the year and earn money for your 4-H club or FFA chapter. This year, members will receive a gift for joining. See your local store or contact your territory sales manager for an application or online at www.cfcfarmhome.com. Only 2024-2025 applicants will be accepted.

Agronomy Tip Sheet

As we head into fall it is a good time to think about fertilizer for your hayfields and crop land. Applying phosphorous and potash in the fall has several benefits. On hayfields, the phosphorous and potash helps with root development to help your grasses survive the winter and thrive as temperatures warm in the spring. Another benefit of a fall application is that it gives the products time to break down in the soil so that more of the nutrients are plant available in the spring, this applies to hay, pasture, and row crops. Applying fertilizer in the fall can also help to reduce the workload in the spring when time and weather can limit what can get done. Once the crops come off this fall you can go ahead and get soil samples to help plan your fertility needs. Find this and previous tip sheets at www.cfcfarmhome.com/agronomy/agronomy-tip-sheet.
